

Examples of the Thesis Statement as a Question

- Do historical and current data and studies reveal an undeniable relationship between rising sea temperatures, blue crab range shifts, and impacts on Gulf and Atlantic ecological and economical systems.
- Are rising sea temperatures a driving factor in the blue crab migration from the warming Gulf sea into more northern chillier climes.
- Is human activity triggering the blue crab migration from the Gulf of Mexico to the cooler waters of the northern Atlantic?
- What role does human activity play in the blue crab migration from the Gulf of Mexico to northern Atlantic waters?
- Why are blue crabs moving north?
- What are the underlying causes of the blue crab's migration to northern Atlantic waters from the warm Gulf sea?
